### EZE-LOK HIGH LOW LONG TERM CARE BED

A Manual Hospital Bed requires hand cranking by a caregiver to adjust height and/or head and foot gatching.

This hospital bed represents a true engineering breakthrough, combining long term care needs with acute care features. The Eze-Lok™ hospital bed single pedal to secure the bed to the floor at any sleep surface height. The color-coded pedals show green for mobile and red for securely-locked.

Specifications:

- 12" Low deck height. Maximum height is 24".
- Available in Manual Hi-Lo, Semi-Electric and Full-Electric high low.
- Available with spring, grid, or pan sleep deck.
- Durable powder-coated epoxy finish.
- 450 lb weight capacity.
- UL 2601-1 and CAN/CSA C22.2 No. 601-1-M90 approved.
- Available in 76", 80", or 84" sleep deck lengths.
- Warranty:
  1. Electronics: 2 Years
  2. All other components: 15 Years.

1stSeniorCare works to ensure your satisfaction with every purchase. 1stSeniorCare strives to make every purchase the right purchase for our customers.
